EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Title

After "Components", insert --Including Plating Solder-Wetting Material and Solder Filling--

Reasons for Allowances

David G. Latwesen, Ph.D. (Reg. No. 38,533) confirmed on 5 May 2005 that Sinha, US Publication No. 2005/0064707 A1 was commonly owned by the assignee of this application at the effective filing date.

The following is an examiner's statement of reasons for allowance: the features of claim 1, lines 6-15, including forming an opening which extends entirely through the component; depositing the first material along the sidewall as a temperature of less than or equal to about 200°C; plating the solder-wetting material over the first material on the sidewalls only partially filling the opening; and forming solder filling from the first elevation to the second elevation cannot be reasonably combined from the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William M. Brewster whose telephone number is 571-272-1854. The examiner can normally be reached on Full Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on 571-272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
